**Sustaining Creative Workers Initiative is supported by
the Victorian Government through Creative Victoria
and Regional Arts Victoria.**

Arts Access Victoria proudly auspices this project.

*A vestige is a trace or reminder of something that has disappeared or is disappearing. A lump of snow with a carrot in it might be the vestige of a snowman.

Vestige derives from the Latin vestigium, "footprint," and that is a good way to think of it — as a little hint of what was there before.
