Life. Be in it.™

— STORMY WEATHER —

MILDURA ARTS CENTRE GALLERY, APRIL 6-APRIL 27

This exhibition, *Stormy Weather*, takes as one of its beginning points, the inclusion of contemporary artists who work with some form of disability. However, *Stormy Weather* is not about disabilities so much as it is about *abilities*, and about the particular way these artists *see* and *make* things.

In this way this exhibition, a project of Arts Access, is a fine example of how every person can become actively engaged in making art.

'Life. Be in it', Vic Health and Arts Access invite you to visit this exhibition and to participate in the arts for a healthier and more creative life.

Through funding kindly provided by the Victorian Health Promotion Foundation, 'Life. Be in it' is proud to be a sponsor of this exhibition.

Education Kits are available for schools visiting this exhibition. For more information. Ph: (050) 233733.
