Tutti Arts – A revolutionary new generation employment initiative for people with a disability.

Tutti Arts, the first vocational program for young artists with a disability in Australia began last October in partnership with Minda Inc.

With Pat Rix as Artistic Director, seven talented artists aged 17-28 began working 3 days a week on music, drama, voice and movement. The students quickly bonded into a close-knit ensemble which has performed to great acclaim at the **DARPA Conference** at Flinders University, the Glenelg North branch of **Rotary**, the launch of the **Channel Nine Telethon** at Minda. They also performed with members of the Tutti Ensemble at the **Novita Techfest** at Regency Park, and most recently, at the **Bundaleer Forest Weekend** and the **Town Day** at Angaston.

Tutti Arts members at Jeanne's farewell dinner

Tutti Arts is now operating three days a week out of the Rogerson Building at Minda and the group has been working with Jeanne Calvit from Minneapolis on stage 2 of *Circles*. The show, still in the process of being devised and written and now titled "**Between the Worlds**" is shaping up to be Disability Arts' answer to *Westside Story* – and will be premiered at the **Awakenings Festival** in Horsham in October this year.
