

Perfectly Imperfect

This highly emotive dance-drama takes a no-holds-barred look at the question of parenthood for women with disability.

Kate, a mother with cerebral palsy, invites her son's three wheely aunts to his 15th birthday. What should be a celebration of 'miracle' boy's life, disintegrates into recrimination and hostility, triggering revelations of long hidden secrets, repressed memories and personal tragedies.

Wheel Women use wheel chairs in daily life.
