ARTS + DISABILITY NSW

# There's something happening across Western Sydney

## The Accessible Arts Vision

A society in which people with disabilities can contribute to and fully experience the arts and cultural life.

Join us in building an inclusive and empowered arts community where people with disabilities have access to a range of innovative and creative opportunities.

We are fostering strong partnerships with the arts and disability sectors and councils across the region to ensure inclusive and sustainable programs and practices.

Visit our blog for more information.
