

ARTS ACCESS VICTORIA

satellite

masterclass for artists with disability

Portrait of Rob, Fiona Sutherland

Satellite artists have the opportunity to take part in public exhibitions; undertake excursions to major arts events and exchange ideas and information around their arts practice with peers who share their passion for the arts.

Satellite is a masterclass studio for artists with disability run by Arts Access Victoria in partnership with the Monash Gallery of Art.

An intensive, masterclass environment provides emerging artists with the opportunity to work closely with two experienced practising artists, refining their artistic practice.

Satellite artists work on projects that are designed to grow their individual practice while working in a professional group studio setting.

Drawing, photography, animation and filmmaking are offered throughout the program.

The Satellite studio is located at the Monash Gallery of Art, Wheelers Hill, Thursdays 9:30am–3:30pm.

Fees for attendance at Satellite do apply. Please call to discuss.

For further information about Satellite, or to arrange a trial visit, please contact Sabina Reynolds at Arts Access Victoria on 03 8640 6008 or sreynolds@artsaccess.com.au
