

# AUSTRALIAN THEATRE OF THE DEAF

## Touring Primary School Show

# LEAPING off the page

With a reputation for presenting high quality, educational shows at schools for over 20 years, Australian Theatre of the Deaf has devised a new show specifically designed to introduce young readers to the magical world hidden within books as they witness stories leaping off the page into three dimensional, vivacious and colourful performances.

Three talented Deaf actors will utilise visual communication (facial expressions, body movements, gestural hand movements) and unique sounds to bring well-known Australian children's books to life. The show will unlock imagination and stimulate inspiration. Accessible to all students (including NESB) as there are no language barriers. Highly interactive show, with the audience selecting their favourite books for visual story telling from a set list.
