

About The Gathering Wave

Inspired by Tutti's inclusive choral model, the Gathering Wave Choir began in Mt Barker in 2007 as a partnership between Ink Pot Community Theatre and Hills Day Options. The Gathering Wave choir was established to meet a need for people with disabilities and their family and friends to come together and sing — for the sheer enjoyment of it. Yet it's also about making high quality arts engagement accessible for all, and the choir takes delight in learning a diverse repertoire to perform in various community settings.

They meet 6:00 – 7:30 pm 2nd and 4th Tuesday of the month

About the Tutti Music Program

Meeting on Wednesday afternoons participants learn the basics of music and singing. The participants are currently writing their own musical production "The Adventures of Sanj Kancil". Many of the Music Program participants also take part in the Tutti Choir.

About the Tutti Choirs

The Tutti Choir is Australia's first inclusive choir and takes its name from the musical term 'Tutti', meaning everyone. Pat Rix founded Tutti in 1997 to give people the opportunity to live out their dreams through music theatre and choral performance. With more than half of its members identifying with a disability, Tutti has become an internationally acclaimed model of artistic excellence and social inclusion with a truly unique voice in Australian arts.

Poco (little) Tutti is comprised of soloists and experienced singers from the large Tutti Choir. Poco Tutti and The Sisters of Invention – the world's first-ever pop girl group with disabilities – will be performing during the 10-day Desert Song Festival in Alice Springs in September.

Tutti Choir meets 5:30 – 7:30 pm Wednesdays.

With thanks to:

Assistant Principal Liam Waterford and the Mount Barker Waldorf School for their support and our volunteers who provided today's afternoon tea.

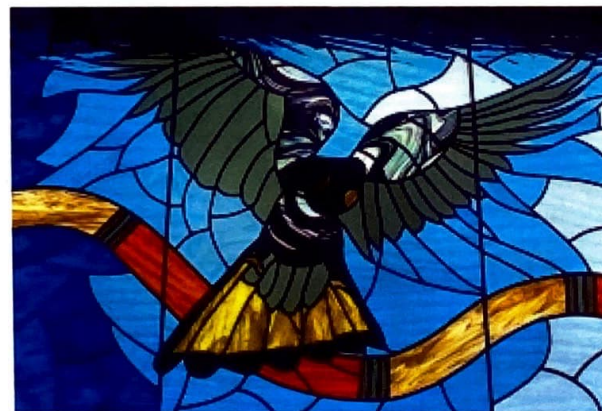

Thank you to today's MC's Jacquy Phillips and Cliff Stoddart.

Many years ago I heard a little Ethiopian girl in a refugee group sing a few lines from a
chant. She didn't know where it came from, what language it was in or even if she
remembered it right. The half remembered melody stayed with me and became the
basis for this song. U Mama promises the earth we will take care of her so that she will
be there for our children and our children's children. Pat Rix
